## 'Over the Top'

That's what British Columbia Red Cedar Shingles are made for.

All of the necessities of life—all the important commodities—are getting higher and higher in price.

There is as yet one important exception—Red Cedar Shingles.

The same amount of wheat, the same amount of logs, will buy twice as many Red Cedar Shingles as in 1914.

Why wait to attend to that roof until the wet weather sets in? Do it now.

## BENTLEY

We are starting a Bentley section in the Western Globe next week, and will devote considerable space to this thriving young city. If you have any items of news please hand same in to Rev. J. M. Fawcett, who will see that we receive them. We intended to have this section started this week, but owing to the delay in getting it in shape have postponed it until next issue. Keep Bentley to the fore.

The Victory Loan Campaign is over. Bentley District has nothing to be ashamed of. With an objective of \$15,000 we started out with a total of \$31,500 we made the finish. Some of the folk who saw the Victory Loan Flag, floating from the staff on the Parsonage Lawn, thought it was a new Allied Flag gotten out to celebrate the Armistice and Peace. Such have claimed (and received I believe) an honor flag for 25 per cent of its quota and a crown for every 25 per cent, in advance over that. According to such reckoning there would be seven crowns on our flag. However we presume the Loan Headquarters will look into the matter and treat all alike. The main thing is that we did splendidly and got the money for our country and the investment for our citizens.

I believe we hold the record for the constituency in one thing. We had one subscriber for \$6,000 worth of Bonds. There were 123 subscribers altogether. Mr. and Mrs. J. H. McPherson, Mr. Hayward and Mr. Block, left for the mountains on a hunting trip Thursday morning. They took along a special caloose and a load of feed and a tent, besides animal union and guns. We hope they bring back more than they can carry, and have a good holiday.

It was a joyous sight to the people of the Valley to see the crowds of wagons line up before the elevator, the early part of the week. The first day it was a crowd and there was an unfortunate mixup because of lack of organization, and some men, who had been on the ground early in the day were pushed out of the way and late comers got in ahead of them. This was both unfair,

and unlooked for. It as remedied however on the second day and subsequently, when it was a lineup in real earnest, and a pleasing sight. 89 loads were taken in on Monday.

Mr. John Dane was operated upon for appendicitis in the Hospital, Lacombe on Sunday, Nov. 17. He is progressing very well. Mrs. Dane is staying at the Hospital in attendance upon her husband.

The Men's Class packed boxes for the boys overseas on Friday night. The class with the Centre View Woman's Club have sent a box to each boy from the valley.

The Hardware Store is going up rapidly. Morrison and Johnston have a good location in the Village and Valley. We look for a good general stock and expect the patronage of the countryside.

Talk about mushroom growth. One night we went to bed with a bank, and awakened the next morning to find a full fledged Bank in the centre of the village. The Union Bank has opened with Mr. Wrightsell in charge. Mr. Wrightsell came here from Didsbury.

We hope some enterprising person will open a lumber yard in the near future. This is about all we need now to make our commercial centre complete.

Mrs. P. A. Clapp of Edmonton with her son Harold, arrived on Saturday to spend the winter with her daughter Mrs. Rev. J. M. Fawcett, at the parsonage.

The influenza epidemic is subsiding in our midst. Tommie Meredith, who has had quite a long siege of it, is down stairs convalescing. The Wright family are all nearly better. Elton Poling is the latest victim, but has only a slight attack.

The Alberta Pacific Grain Company's Elevator is almost completed. They are busy now creating an ample coal shed for which two cars of coal are already on the track.

Mr. George Meredith has accepted the agency for a B.C. Lumber Co. Direct from the mill to the consumer is the policy of this company. Carload lots are their specialty.

The Trainsmen are busy these days, the grain going out and the lumber coming in, has compelled the resumption of the twice a day service. Two cars of wheat seems to be the maximum load. It is reported that a large engine will be put on the service in a couple of weeks.

Miss Conie Taylor returned to Calgary last week.

Skating parties are the order of the evening. The river is the favorite rink, although some have been going further afield.

Mr. H. M. Trimble is buying

grain on the platform and seems to keep busy.

Mr. and Mrs. Geo. Raymond who were married a couple of weeks ago have both been victims of the prevailing epidemic.

It is quite difficult to decide whether or not there will be church service on Sunday Dec. 1st. The local authorities have received no word yet lifting the ban. It is, however, possible that service will be held. Interested parties can find out by telephoning on Saturday or looking for a notice in the post office.

St. Andrew's Church

Next Sunday, Dec. 1, will, in all probability, be the re-opening Sunday. It will be observed as a Special Day of thanksgiving—not only for the victorious Peace, but for the passing of the recent epidemic.

At the morning service the pastor will preach on the subject "God never Forgets." At the evening service the subject will be "The Coming Reign of Peace." Special music at the evening service. Anthem "O! Give Thanks unto the Lord." Solo by Mrs. W. F. Graham. You will be heartily welcomed to both services.

NO MORE RESTRICTIONS ON TRAVEL TO STATES

"Permits to leave Canada heretofore unnecessary."

This means that all travel restrictions imposed to control the movements of aliens and those coming under the operations of the military Service acts are lifted. The restrictions have been a considerable burden upon travelers and business men whose affairs required them to travel back and forth between Canada and the United States and the lifting of the restrictions will be welcomed.

## JOHN McKENTY

## DON'T WANT THE KAISER

London, Nov 22—Some of the Dutch newspapers have been dealing of late with presence in The Netherlands of William Hohenzollern, the former German Emperor, and the former crown prince.

The Telegraph and some of the other journals advocate the expulsion of the German personages. Others of the newspapers take a more moderate view of the subject, while admitting that there is a prospect of Holland getting into difficulties over the question. The News Van Den Dag of Amsterdam, a very moderate newspaper, publishes an article on the subject which reveals the uneasiness prevailing in various Dutch circles over the presence of the Hohenzollerns.

"For the present," he says, perhaps there is no danger of a plot on our soil against Germany's new democracy among the entourage of the ex-kaiser or the ex-crown prince, but who can say when these dangers might not be realized if the "guests" did not depart speedily.

History teaches that kings in exile like to seize a good opportunity to react their former roles. We desire to express our frank opinion that not we but the allied governments have the right to decide whether the residence in Dutch territory of individuals who are considered by them to personify the powers against which they have been fighting is dangerous to them or not. If the Dutch government has another opinion on the subject then it will have to bear the consequences, and the Dutch nation, if things come to a serious pass, will be involved in war or have to starve, forsooth on behalf of former German royalties.

N. E. Carruthers, Returning Officer.

**Notice to the Public**

The clothing of persons ill of influenza must be thoroughly fumigated before they resume intercourse with the public in business capacity or socially.

All homes where there have been cases of influenza must be thoroughly cleaned and fumigated, in order to prevent a fresh outbreak of the disease by people visiting at those homes in the future.

By giving attention to these requests, you will greatly assist in stopping the disease.

There is no relaxation with regard to the wearing of masks, which should be changed at least twice daily. Holding of meetings, sales, or church services, etc.

By exercising patience, keeping a stout heart, and giving assistance to the needy, you will assist greatly in the work of fighting the epidemic.

In Lacombe, and its immediate vicinity conditions are favorable.

Danron, at Bentley, or Jesse Frazer or the Western Globe, Lacombe, when arrangements will be completed.

**OLIVE NEWS**

The W. L. of Olive will hold its regular meeting on Saturday, December 7th, at 2:30 p.m. in the Red Cross Room, when the following programme will be presented: A paper on "Friendship" by Mrs. S. C. Dean. Election of officers. A farewell speech by the retiring President and Secretary. Lunch will be served. All members are urged to attend. Those who are not members are urged to attend. Those who are not members are urged to attend. Those who are not members are urged to attend.

**THAT MASK ORDER**

The Edmonton medics have decided that the wearing of the gauze mask for preventing the spread of the influenza, is a joke, and therefore, last week the order to wear them was rescinded. At first the northern doctors said the masks were just what was needed, but something happened to them which changed their minds, or the luncheon got sore because someone of their number whom they did not like thought they were all right and they had to put it over him. The masks, while they may not have been a guard against the "flu", kept a whole lot of Alberta real estate from going down one's throat during the past few weeks.

Allan McDonald is kicking because the order re wearing "flu" masks has been called off. He thinks it was the best piece of legislation ever perpetrated by the Alberta government, his complexion having improved 734 per cent. Since the order came into effect, "I think that the young men of Alberta should petition the government to have the wearing of masks in the fall and winter made compulsory from now on, as I have proved that they are far better for the complexion than any powders or invisible creams I have ever used." was Allan's emphatic statement to a reporter.

**Arbordale News**

Farmers feeling good these days. It has been a great fall, and is helping the feed question.

More fall ploughing has been done here this season than in any previous year.

Threshing results have been much better than anticipated.

B. S. Burke has nearly finished his house. We hear he is going to give his mansion to the boys for a dance or two when they return home. Good for Ben.

"Mut" T. D. Simpson, has gone back to live in the Park Woods after a busy season of threshing and ploughing. "Jeff" Clifford Unwin, we hear was going to dispose of some second hand stuff this week.

Our genial rooster, H. D. Patterson, is confined to his bed with rheumatism. We hope he will soon be about again.

The ditcher has been busy here the last few weeks, and some very good work has been done. This will be more appreciated when the rains come.

The genus passing over here are taking no effect owing to the strict rules of Masknot.

P. Duncan is busy getting his well fixed. We hear he is down to the lake and is in town for dynamite last Saturday. Pete ought to have borrowed a stick from the Town Hall—lots never exploded.

**UNCLE DUDLEY SAYS**

Now that skating is in full swing many people have been skating on Dickson's lake and in it.

The reason that people do most of their thinking they are better looking without them.

News papers, sure are funny critics sometimes. I noticed in one the other day an advertisement which read: "Piano wanted by a lady with carved Mahogany legs."

While on the street the other day, I overheard two men talking; one was an undertaker and the other was a fishman. The fishman says to the undertaker who we will call C.R. I suppose business is dead with you.

Yes says C.R. I haven't buried a living soul for three weeks.

The above reminds me of the Irishman who was putting on a pair of tight shoes and remarking "Oh bedded, I shall never get them on until after I have worn them a few days."

**AMERICANS ON GERMAN SOIL**

Paris, Nov. 21.—A delegation of the American Red Cross has crossed the Rhine into Baden at Hungen, placing the first Americans on German soil. The place where the river was crossed in a short distance north of the Swiss frontier.

The German soldiers accepted American flags and officers cleared the road for the Red Cross Trucks, and insisted that the German workers bring with them.

German soldiers, penniless in Baden, are selling German arms and supplies. The population, which is revolutionary, is in complete control. Ragged and famished Italians almost raised the roof of the Red Cross canteen with cheers when the Red Cross workers opened the place.

The Red Cross delegation left Switzerland for Alsace Friday, taking with them a truck load of supplies. Two hundred Italians were fed. A canteen was established at St. Louis. Ten thousand Germans passed the canteen, all wearing the revolutionary red ribbon. The officers and men carried red flags.

Demobilization has started in Canada. The civil branch of the military police has been disbanded, and no further effort will be made to bring draft evaders to justice. The only punishment they will receive will be that they will not be allowed to vote for some time. Men in camps in Canada will be sent home in the near future.

German Socialists are very impatient because the kaiser does not abdicate. When patience passes the limit in such little matters as this in Europe something very shocking usually happens to the person with whom the Socialists are impatient.

B. F. Bailey, one of our best known old timers who now lives in sunny California, having finished his labors for 1918 in Lacombe district, left for home on Tuesday night last. Mr. Bailey has several good farms in this vicinity, and reports the crop this year as good. He will be back next fall, and expects to bring Mrs. Bailey and his children with him. In B. F. Bailey this district has a live booster—he made money here by himself and is not in a hurry to put others on the right road to success, and you can bet that everyone within miles of his California home knows what a great farming country we have here.

M. B. MACDONALD CALLED  
BY DEATH

Listowel Banker—Mr. M. B. MacDonald, who re-  
signed a month ago as Prudential  
agent in Listowel because of ill-  
ness, died Thursday at six o'clock  
from diabetes, at the age of thirty-  
six.

He leaves a wife and four young  
children, Watson, Raymond, Ar-  
thur Gregory and Olive Mildred.  
His mother also survives and is liv-  
ing with a son in Elmwood.  
Mrs. MacDonald was formerly  
Miss Olive Watson and daughter  
of Mr. Mrs. J. A. Watson of  
town.

The funeral is being held on  
Saturday at Fairview cemetery  
and will be in charge of Rev. W.  
E. Milson, Methodist pastor.

Mr. MacDonald was born in Ben-  
tick, Grey township, and before  
his marriage here thirteen years  
ago, conducted a barber shop in  
Listowel for Mr. John Stewart.  
They then went to Hamilton, and  
after a year to Lacombe Alberta,  
where for 12 years Mr. McDon-  
ald had a barber shop of his own.

In October 1917 he returned to  
Listowel and opened up a barber  
shop which was destroyed in the  
fire of January last. Later he ac-  
cepted the position as insurance  
agent and was getting along so  
successfully that the company ad-  
vised him to his territory.

His mother, Mrs. Donald Mc-  
Donald is upwards of eighty years  
of age and resides with her son,  
Mr. Douglas McDonald of Elm-  
wood. Other brothers and sisters  
are Mrs. Harry Alexandra in Sas-  
katchewan, Mrs. P. H. Thibaudan  
of Stettler, Alberta; Mrs. W. Gra-  
ham and Mrs. Samuel McAllister  
of Hamilton, Mr. J. A. McDon-  
ald of St. Catharines and Mr. Don-  
ald McDonald of Hamilton.

The late Mr. MacDonald was a  
member of the I.O.O.F. and the  
Modern Woodmen of America.  
Previous to July last, he enjoyed  
good health and lived an active  
life, being an enthusiastic sports-  
man while in the west. He was a  
mild unoffensive disposition and  
readily made friends.

DEMAND FOR LIVE STOCK  
INCREASING.

Ottawa, Nov. 22.—Representa-  
tives livestock men including breed-  
ers, dealers and meat packers from  
all parts of the country, met at  
the Chateau Laurier, with the  
officers of department of agricul-  
ture and Chairman Thompson of  
the Canada food board, to discuss  
plans for securing and financing  
the maximum business in livestock  
products for Canada from the United  
Kingdom and Europe during the  
period of reconstruction, up  
on which the world is now enter-  
ing. The demand upon the live-  
stock industry of this country dur-  
ing the next few years in the un-  
animous view, as expressed by  
those present today, was likely to  
exceed that of the four years of  
war.

Emphasis was laid throughout  
the discussion upon the important  
part livestock may be made to  
take in payment of the national debt  
incurred by the war.

"Annual interest on our war  
debt alone would amount to over  
"\$55,000,000," said Chairman  
Thompson of the Canada food  
board. "Most of that amount  
has got to come out of the top six  
inches of the soil. It is my  
firm conviction that the livestock  
industry's development is the  
most important reconstruction  
work that can come before the go-  
vernment. The farmers of Cana-  
da won't be taking any chances by  
increasing their livestock opera-  
tions in every direction. By in-  
creased production of livestock we  
can pay the interest on our national  
debt, wipe it off entirely and  
start the era of peace time prosper-  
ity Canada is entitled to."

It was the general opinion of  
the representatives of the packing  
houses present, based on several  
cases from the reports of their  
agents overseas that the market  
for livestock products will not be-  
come normal for at least four  
years.

E. C. Fox, of the William Day  
company, declared that the  
market for hogs was greater than  
Canada could supply.

KING'S ADDRESS AT THE  
PROLOGATION

London Nov. 21 Canadian Press  
Dispatch from Reuters: The  
king's speech on the prorogation  
of parliament today was as follows:

"The occasion on which I add-  
ress you marks the close of a  
period which will be forever mem-  
orable in the history of our country."

The war on which all the energies  
of our people throughout the dom-  
inions for over four years have  
been concentrated has at length

been brought to a triumphant is-  
sue. The conclusion of an armis-  
tice against us gives the prom-  
ise are long of an honorable and  
enduring peace.

"I already have sought an op-  
portunity of expressing the admi-  
ration and gratitude with which I  
regard the supreme self sacrific-  
ing devotion that led to his glori-  
ous result. Amidst our rejoicing  
let us not forget to render humble  
thanks to Almighty God for the  
success with which it has pleased  
pleased Him to crown our arms."

"Gentlemen of the House of  
Commons; I thank you for the un-  
failing patriotism with which you  
have made provision for the re-  
quirements of the war.  
"My Lords and Gentlemen, The  
exertions which have carried us  
to victory must in no wise be ab-  
ated or slackened until the rav-  
ages of war are repaired and the  
fabric of our national prosperity  
is restored. Through the exten-  
sion of the suffrage, which this  
parliament has affected, all classes  
of my people will have the op-  
portunity of inspiring and guid-  
ing this beneficent undertaking. I  
trust that the spirit of unity which  
has enabled us to surmount the  
perils of the war, will not be want-  
ing in no less arduous task of es-  
tablishing on the sure foundation  
of ordered liberty the common  
welfare of my people. In bidding  
you farewell, I pray that the ben-  
diction of Almighty God may rest  
upon your labors."

NO CHANCE FOR PRETEN-  
DERS

One of the pretenders to the  
throne of France has written the  
French premier, congratulating  
him on the success of the French  
republic and generally expressing  
satisfaction at the outcome of the  
war. A pretender is a claimant  
to the French throne, an heir to  
one of the monarchs who reigned  
in France. This is an utterly hope-  
less season for this sort of  
"pretending." There were very  
few royalists when the war began  
and there are no royalists in  
France now. This is not an age  
for the extension of royalty. This  
is a season when royalty is not in  
flower.

The present French republic is  
not yet half a century old. Most  
of us remember when sage people  
predicted its speedy end. An-  
xious democrats in France have  
not got through making special  
precautions, fearing that some per-  
son might come along, get control  
and start a dynasty. It is since  
just a quarter of a century since  
the Boulangier incident alarmed  
France and interested the world.

But when the French nation  
was in peril in 1914, and again in  
the spring of 1918, and on sev-  
eral occasions between those dates  
no Frenchman of any note or in-  
fluence, or the French people them-  
selves, ever questioned the repub-  
lic. No one seemed even to have  
whispered that the time had ar-  
rived to turn again to royalty. The  
people were more steadfast in  
their democratic ideals than ever  
before.

These are bad days for mon-  
archs, emperors, kings, princes,  
and no day at all for pretenders.

## JOB WAITING FOR THEM

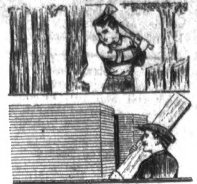

(Calgary Albertan)

The Calgary school board has  
sent letters to all its employees  
serving overseas, congratulating  
them upon their record in the  
war, expressing pleasure that they  
are alive and unharmed, and ac-  
quainting them with the fact that  
their positions are open and the  
board waiting for them as soon as  
they can return. The men on their  
return will step into the positions  
they left, or into some better po-  
sitions, to which they would likely  
have been promoted had they re-  
mained. They will get the ad-  
vantage of the regular schedule  
increases which have continued  
while they were away, and will  
get the benefit of the increases  
which have been made since they  
left.

Private employers, throughout  
city would do well to follow the  
example the board has given. It  
is a recognition of the service of  
the men, a right kind of welcome,  
and may have a real tangible val-  
ue. When the time comes, the  
men who have positions to go to,  
without doubt will get back home  
first. This is a very little  
courtesy which is due the boys over-  
seas.

It is our sad duty this week to record the death of Miss Edna Boardman, a young lady well known to many in Lacombe. Her death occurred last week at Vegreville, where she has been engaged as school teacher. When the epidemic caused the closing of the schools, Miss Boardman undertook to nurse some of the afflicted families, and contracted the disease, from which she died. Her sister, Mrs. James, of Lacombe, was with her at the end and the funeral was held at Vegreville. Miss Boardman had many friends in Vegreville, and everything possible in the way of tender nursing and medical attention was given her, but pneumonia developed, and their work was with out avail.

Special Thanksgiving Services will be held in St. Cyprian's Church on Sunday as follows: Celebration of the Holy Communion at 8 a.m. Morning Prayer and Holy communion at 11, and evening prayer at 7:30.

The hymns at these services will be appropriate to the occasion: "Before Jehovah's Awful Throne, Ye Nations Bow With Sacred Joy," one in honor of the fallen, "Ten Thousand Times Ten thousand," "The anthem 'Hallelujah! What Shall We Render!'" and the National Anthem. In addition the grand old 'The Deum' will be sung. Country members of the church are earnestly invited to make an effort to participate in this world wide service of thanksgiving.

If the party who makes a habit of stealing bottles of milk and cream from Geo. McNeil's milk van will please return the bottles nothing will be said. He is known and is welcome to the milk, but I am short of bottles.

#### SURRENDER SHIPS

London, Nov. 21. Nine German Battleships, five battle cruisers, seven light cruisers, and fifty destroyers, representing the main portion of Germany's navy, surrendered to the British today.

The surrender was made at 9:30 o'clock in the morning, when they were taken over by the commander-in-chief of the Grand Fleet, Admiral Beatty, and escorted into British waters by British and American warships.

British Fleet which witnessed the surrender consisted of 400 ships, including 50 dreadnaughts, 50 light cruisers, and nearly 200 destroyers.

When on its way to surrender, a German destroyer struck a mine and sunk in the North Sea. German's high seas fleet, after its surrender to the Allied Navies, was brought to the Fifth of North today. The British grand fleet and five American battleships, and 3 French warships, in two long columns, escorted the 71 German vessels to their anchorage.

Describing the surrender of the German warships to the commander in chief of the grand fleet, Sir David Beatty, today correspondents say that after all the German ships had been taken over, the British Admiral came through the line on the Queen Elizabeth, every Allied vessel being manned, and greeting the admiral and the flag ship with loud and ringing cheers.

The British grand fleet put to sea in two single lines six miles apart and so formed as to enable the surrendering fleet to come to the centre. The leading ship of the German line was sighted between 9 and 10 o'clock in the morning. It was the Seydlitz, flying the German navy ensign.

#### PROVINCE WILL START CAMPAIGN FOR LIVE STOCK

An aggressive live stock campaign will be put on this winter throughout Alberta. It is announced by Hon. Duncan Marshall. The short coming schools, which have been dropped the past two years because of the war conditions, will be resumed, and arrangements are now being made to start out trains on the itinerary in January.

In the work of these traveling schools the emphasis will be placed to a large extent upon the growing of live stock.

Increased production in all agricultural lines is to be kept in view

by the government authorities and according to the minister, has already been taken up by the farmers themselves as their aim for 1919. The prospects at present are good, granted only that the weather conditions next spring are favorable.

Approximately 2,250,000 acres of new breaking will be available for next year's farming as a result of the past season's operations. This is about the same amount of new land as was broken last year, and but for the dry weather would have been greatly increased.

More fall work has been done this season Mr. Marshall says, than in any year for a long time.

The fall has been ideal for farming operations, and a great amount of plowing has been done. Even before end of the war was in sight Alberta farmers realized that there would be need of all they could produce in 1919, and therefore set themselves to a full programme of more than usual proportions.

As to the future of the live stock industry in the province, Mr. Marshall says he does not anticipate any drop in prices for the coming year, and in the case of breeding stock not for three or four years. The shortage of meats and furs in Europe will mean an increased demand for Canadian products, and all the meat that Alberta can supply will find a ready market. It is considerably easier, the minister has found, to interest farmers in the better future for the province, and the world situation makes for good business here in the west.

The department is considering ways and means of fostering the spirit of greater production, and the aim, as stated by Marshall, will be to make the output in all lines as great as conditions will permit.
